Second-year Mechanical Engineering student at the University of Sheffield looking to gain hands-on experience and get involved with real-world projects. Strong academic background and a passion for engineering design and innovation combined with leadership, public engagement, and teamwork skills developed through a national ambassador role, volunteering, and university-based design projects.

Education

University of Sheffield

MEng Mechanical Engineering with a Year in Industry (Expected Graduation: 2029)

Birchwood High School, Bishop's Stortford

A-Levels: Maths (A*), Further Maths (A), Physics (A), German (B) (2024)

GCSEs (10): Including Maths (9), Physics (9), Chemistry (9), Biology (9), German (9), Geography (9), Design & Technology (8) (2022)

FSMQ (Additional Maths): Grade A (2022)

Experience

University Group Projects – Mechanical Engineering

2024 – 2025

Reaching Aid Design: Collaborated on the design and presentation of a mechanical reaching aid tailored for individuals with additional needs

- Worked with the team to develop the concept and present design
- As team secretary, managed documentation, scheduling and minuting of meetings supporting project administration

Water Bottle Rocket & Launcher: Designed and tested a water-propelled rocket system with custom launcher

- Recorded and graphed performance data including launch distance and trajectory to enable accurate prediction on test day
- Played a key organisational role in managing group communication and compiling results

SELSA (Sheffield Engineering Leadership and Service Award)

September 2025 - Present

Selected to join SELSA, a competitive leadership programme for engineering students at the University of Sheffield

- Participating in workshops, industry networking, and team-based challenges focused on leadership, innovation, and social impact
- Leading the Vulcan to the Sky trust service project based around creating a stand for the Get Up To Speed with STEM fair in March 2026
- Hackcessible Co-curricular multidisciplinary project focused on increasing accessibility in para ice hockey

Beaver Leader, 36th Sheffield Scout Group

November 2025 – Present

- Supporting weekly activities for 6–8-year-olds, encouraging confidence, teamwork, and curiosity.
- Helping to plan and deliver engaging, safe sessions alongside the leadership team.

Personal Engineering Project – Mini Golf Hole Design & Build

Summer 2025

Independently designed and constructed a functional mini golf hole with hazards and a rotating windmill obstacle

- Applied principles of mechanical design, material selection, and basic fabrication techniques
- Used hand tools and simple mechanisms to create interactive features

National Young Ambassador – England Golf & Golf Foundation

2022 – 2024

Working with a small group of young people from across the country to represent the voice of junior golf in England

- Represented junior golf nationally at PGA events and outreach events
- Volunteered with ‘Golf Girls Rocks’ initiative at a local club
- Managed social media content and wrote articles for national publications
- Attended workshops and meetings to discuss ideas on improving junior golf
- *Hero’s Handshake Award* – peer-nominated national recognition

Cantate Youth Choir

2014 – 2024

Committed ensemble member for 10 years, performing at concerts and competitions

Technical & Transferable Skills

- Engineering Tools: Fusion, AutoCAD (basic), MATLAB (learning)
- Other Skills: Technical drawing, report writing, public speaking, social media management, Python (basic)
- Practical Skills: Hands-on prototyping, mechanical assembly, design iteration
- Soft Skills: Teamwork, leadership, communication, organisation
- Languages: German (intermediate proficiency – A-Level qualification)
